

COMPUTATIONAL PRACTICE 1

(the * and • symbols stand for multiplication and / stands for division)

Adding & Subtracting Whole Numbers

1. $9,574 + 5,567 =$	2. $788 + 1,251 =$	3. $5,461 - 875 =$	4. $4,102 - 3,659 =$
----------------------	--------------------	--------------------	----------------------

Multiplying & Dividing Whole Numbers

5. $17 \times 58 =$	6. $407 \times 69 =$	7. $815/15 =$	8. $5,720/60 =$
---------------------	----------------------	---------------	-----------------

Adding & Subtracting Decimals

9. $1.6 + 5.83 =$	10. $523.65 + 37.01 =$	11. $15.97 - 3.66 =$	12. $791.4 - 56.58 =$
-------------------	------------------------	----------------------	-----------------------

Multiplying & Dividing Decimals

13. $5.7 \times 8 =$	14. $3.9 \times .01 =$	15. $15/.6 =$	16. $36.8/.04 =$
----------------------	------------------------	---------------	------------------

Adding & Subtracting Fractions

17. $\frac{2}{3} + \frac{1}{4} =$	18. $\frac{3}{4} + \frac{1}{6} =$	19. $\frac{4}{5} - \frac{1}{10} =$	20. $10 - 4\frac{1}{2} =$
-----------------------------------	-----------------------------------	------------------------------------	---------------------------
